Words such as "anticipates", "believes", "could", "estimates", "expects", "intends", "may", "plans", "potential", "predicts", "projects", "should", "will", "would" and similar expressions are used to identify forward-looking statements. Without limiting the generality of the foregoing, forward-looking statements contained in this presentation include the Company's expectations regarding the possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, projections, effects of regulation and the economy, generally.

Forward-looking statements can be affected by the assumptions used or known or unknown risks or uncertainties. The Company's forward-looking statements are based on estimates and assumptions that are subject to significant business, economic and competitive uncertainties, many of which are beyond the Company's control or are subject to change. Consequently, no forward-looking statement can be guaranteed, and actual results may differ materially and adversely from those reflected in the forward-looking statements. In addition to the factors described in this presentation, other factors that could cause actual results to differ materially from those indicated in the forward-looking statements include, among other things, those set forth in the Company's earnings release dated May 8, 2024, which is included as an exhibit to the Company's Form 8-K furnished to the U.S. Securities and Exchange Commission ("SEC") on such date, and in the Company's SEC filings, including the Company's most recent reports on Forms 10-K and 10-Q. Non-GAAP Measures

This presentation contains certain financial measures that are not recognized under generally accepted accounting principles in the United States ("GAAP"). Primoris uses earnings before interest, income taxes, depreciation and amortization ("EBITDA"), Adjusted EBITDA, Adjusted Net Income, and Adjusted EPS as important supplemental measures of the Company's operating performance. The Company believes these measures enable investors, analysts, and management to evaluate Primoris' performance excluding the effects of certain items that management believes impact the comparability of operating results between reporting periods. In addition, management believes these measures are useful in comparing the Company's operating results with those of its competitors. The non-GAAP measures presented in this presentation are not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP. In addition, Primoris' method of calculating these measures may be different from methods used by other companies, and, accordingly, may not be comparable to similarly titled measures as calculated by other companies that do not use the same methodology as Primoris. Please see the accompanying tables to this presentation for reconciliations of the following non-GAAP financial measures for Primoris' current and historical results: EBITDA, Adjusted EBITDA, Adjusted Net Income and Adjusted EPS.

Reg G Reconciliation

Schedule 1:
Reconciliation of Adjusted Net Income & Adjusted EPS
1Q 2024 vs. 1Q 2023

Adjusted Net Income & Adjusted EPS

Primoris defines Adjusted Net Income as net income (loss) adjusted for certain items including, (i) non-cash stock-based compensation expense; (ii) transaction/integration and related costs; (iii) asset impairment charges; (iv) changes in fair value of the Company's interest rate swap; (v) change in fair value of contingent consideration liabilities; (vi) amortization of intangible assets; (vii) amortization of debt discounts and debt issuance costs; (viii) losses on extinguishment of debt; (ix) severance and restructuring changes; (x) selected (gains) charges that are unusual or non-recurring; and (xi) impact of changes in statutory tax rates. The Company defines Adjusted EPS as Adjusted Net Income divided by the diluted weighted average shares outstanding. Management believes these adjustments are helpful for comparing the Company's operating performance with prior periods. Because Adjusted Net Income and Adjusted EPS, as defined, exclude some, but not all, items that affect net income and diluted earnings per share, they may not be comparable to similarly titled measures of other companies. The most comparable GAAP financial measures, net income and diluted earnings per share, and information reconciling the GAAP and non-GAAP financial measures, are included in the table below.

| (\$ thousands, except per share amounts) | 1Q 2024 | 1Q 2023 |
|--|------------------|-----------------|
| Net income as reported (GAAP) | \$ 18,943 | \$ 1,310 |
| Non-cash stock-based compensation | 2,406 | 2,379 |

| Amortization of debt issuance costs | 600 | 491 |
| Unrealized (gain) loss on interest rate swap | (662) | 469 |
| Change in fair value of contingent consideration | - | (245) |

| Income tax impact of adjustments | (2,794) | (3,322) |
| Adjusted net income | \$ 25,784 | \$ 9,851 |
| Weighted average shares (diluted) | 54,414 | 53,944 |
| Diluted earnings per share | \$ 0.35 | \$ 0.02 |
| Adjusted diluted earnings per share | \$ 0.47 | \$ 0.18 |

Schedule 2:
Reconciliation of EBITDA & Adjusted EBITDA
1Q 2024 vs. 1Q 2023

EBITDA and Adjusted EBITDA

Primoris defines EBITDA as net income (loss) before interest, income taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA adjusted for certain items including, (i) non-cash stock-based compensation expense; (ii) transaction/integration and related costs; (iii) asset impairment charges; (iv) severance and restructuring changes; (v) change in fair value of contingent consideration liabilities; and (vi) selected (gains) charges that are unusual or non-recurring. The Company believes the EBITDA and Adjusted EBITDA financial measures assist in providing a more complete understanding of the Company's underlying operational measures to manage its business, to evaluate its performance compared to prior periods and the marketplace, and to establish operational goals. EBITDA and Adjusted EBITDA are non-GAAP financial measures and should not be considered in isolation or as a substitute for financial information provided in accordance with GAAP. These non-GAAP financial measures may not be computed in the same manner as similarly titled measures used by other companies. The most comparable GAAP financial measure, net income, and information reconciling the GAAP and non-GAAP financial measures are included in the table below.

| (\$ thousands) | 1Q 2024 | 1Q 2023 |
