Premier PV, a Primoris Services Corporation Company, Reaches \$55 Million in Backlog

DALLAS—(BUSINESS WIRE)—Premier PV, part of specialty contractor Primoris Services Corporation’s (NYSE: PRIM) (“Primoris” or “the Company”) family of companies, announced today that it has reached over \$55 million in backlog. Premier PV is a provider of electrical balance of systems (eBOS) solutions to the solar, battery energy storage systems, and operations and maintenance markets, with a focus on utility-scale applications. Its product offerings include combiner boxes, load break disconnects, splice boxes, wire harnesses, and jumpers and extenders – making it a complete eBOS provider to its clients.

“We’re proud to achieve this backlog milestone, which is a true testament to our talented team, respected partners, and exceptional clients,” said Ryan Schofield, Vice President of Operations for Premier PV. “We deeply appreciate the trust and collaboration as our business has experienced tremendous growth over the last few years – this is an exciting time for our company as we explore new markets and opportunities. We look forward to continuing to deliver best-in-class products and value to our clients as we shape a sustainable energy future together.”

Premier PV is headquartered in Crossett, Arkansas and works with a variety of engineering, procurement, and construction contractors throughout the U.S. – since its inception, it has produced and deployed over ten gigawatts of eBOS products at its ISO9001 certified facility. With environmental stewardship and responsibility at its core, the company utilizes sustainable packaging to eliminate on-site waste, ensure product protection, and promote reusability.

Dedicated to delivering solutions that redefine eBOS, Premier PV’s leadership team is comprised of industry veterans with over 55 years of combined experience. As part of Primoris Services Corporation, Premier PV offers its clients the benefits of vast renewable energy knowledge, experience, resources, and proven technology.

“Premier PV is not only a value-add for our Primoris clients, but is a standalone operation that can service a wide range of contractors, owners, and developers across the renewables landscape,” said Stephen Jones, President of Primoris’ Renewables business. “We’re constantly challenging ourselves to drive innovation, reduce total cost of ownership, deliver exceptional results, and expand our service offering in utility-scale solar, battery energy storage, operations and maintenance, and more. As the renewable energy landscape rapidly evolves, Premier PV is an example of how we’re providing impactful solutions to power positive change and improve the design life of our clients’ assets.”

About Premier PV

Premier PV is a trusted leader in solar photovoltaic solutions, specializing in the manufacturing of complete eBOS solutions. Headquartered in Crossett, AR, we proudly create our products in our ISO9001 certified facility in the heart of the South, embodying the spirit of American craftsmanship and ensuring we meet the evolving needs of our clients with unmatched efficiency and scale. Led by a team of experienced industry veterans, we are dedicated to delivering cutting-edge solutions that redefine industry standards, maintain the highest levels of quality, and help shape a sustainable future in the energy industry. FORWARD LOOKING STATEMENTS

This press release contains certain forward-looking statements that reflect, when made, the Company's expectations or beliefs concerning future events that involve risks and uncertainties, including the Company's future performance. Forward-looking statements include all statements that are not historical facts and can be identified by terms such as "anticipates", "believes", "could", "estimates", "expects", "intends", "may", "plans", "potential", "predicts", "projects", "should", "will", "would" or similar expressions. Forward-looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of regulation and the economy, generally. Forward-looking statements inherently involve known and unknown risks, uncertainties, and other factors, which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Actual results may differ materially as a result of a number of factors, including, among other things, the risks described in Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2023, and our other filings with the U.S. Securities and Exchange Commission ("SEC"). Such filings are available on the SEC's website at www.sec.gov. Given these risks and uncertainties, you should not place undue reliance on forward-looking statements. Primoris does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.
